

About the MOPD ID

The MOPD ID was developed to facilitate individuals' participation in Missouri's Professional Development System. This 6-digit number is managed by the OPEN Initiative. Professionals can use their MOPD ID when participating in activities such as using the Missouri Workshop Calendar and accessing training reports on the Toolbox.

Common Reasons Professionals Need a MOPD ID:

- All early childhood, afterschool and youth development professionals in Missouri need a MOPD ID to
 - register for approved clock hour workshops found on the MO Workshop Calendar
 - access their training attendance reports on the OPEN website (Toolbox)
- All early childhood, afterschool and youth development trainers need a MOPD ID to complete all processes necessary to provide clock hour approved trainings, including
 - seeking training approval;
 - scheduling training events on the Missouri Workshop Calendar; and
 - managing event attendance and training credit for training participants.
- Program administrators and other professionals with program level access need a MOPD ID to access other features on the OPEN or Child Care Aware® of Missouri secure websites.

Note: If a professional does not have a MOPD ID, he/she will be unable to use the services described above.

Generating a MOPD ID: Although many professionals receive a MOPD ID as a function of their enrollment in the MO Professional Development Registry, any professional interacting with the MO Professional Development System will receive a MOPD ID. An individual may request a MOPD ID or their employer may do so for them, to associate an employee with their program in the database systems.

Data Needed to Generate the MOPD ID: The following information is required in order to generate his/her unique MOPD ID.

- Full name (first and last)
- Date of birth
- The last 5 digits of the Social Security Number

This information is necessary to create a unique ID for the individual and to uphold data systems' operating standards. The University of Missouri follows strict privacy standards, as does the National Workforce Registry Alliance. The data collected to generate a MOPD ID is not inclusive of all the data needed to pose a threat to one's identity security.
